

METADATA AT JCOMMOPS

Why it is important

- “Metadata” for monitoring
 - Deployment information (position, date, ship)
 - Operator information (program)
 - GTS identifier (WMO code)
 - Sensors

- Notification to comply with international rules
 - Deployment
 - EEZ warning

- Workflow
 1. Metadata at JCOMMOPS: planning, notification
 2. Data at GDAC/GTS

RESTITUTE THE METADATA

- Web-based tool
 - More than a website, a **web application**
